[JTRLP15] Maffi – Mastermind Computer Style (LP)

Catalogue No: JTRLP15
Format: LP vinyl
Release date: 17. JUL 2024
Label: JAHTARI
Barcode: 821555210283

Ten bad boy digi riddims from the myspace era by Copenhagen's **Maffi** crew, dubbed out into 3D space by **disrupt** in 2024.

Raw, minimalist CyberDancehall at its best, nostalgic and oddly futuristic at the same time, this album is quickly becoming RoboCop's favourite playlist when going to work.

Maffi Promotions a.k.a. Maffi Boys come straight outta 1773 Kbh V, Copenhagen, Denmark. Originally founded in 1990 by the two homeboys, lazy body Moog and Junior the Rat, Maffi Promotions have been a steady producer of simple digital riddims for years. Hanging out in the streets of Hummel City Junior & Moog used to entertain their friends with the primitive riddims of the Maffi sound. Not knowing that they would do the exact same thing fifteen years later, they continued to believe that one day they would move up the ladder, break out of the underground and reach for the stars.

Now, after finally adopting a little sense of realism, the two homeboys have realised that stardom is nothing compared to spamming people on myspace. So the two stoners decided to get a couple of friends together and turn up the bass online. Together with their sound crew FIREHOUSE, Maffi deal nuff weed and gyals!

Maffi Boys are very dedicated to the art of playing Sensible World of Soccer, rolling weed joints with Manitou tobacco and keeping it real in a Vesterbro-style. So watch out! And don't test! We'll be putting up new riddims on a weekly basis. We have nuff things brewing – including a delicious chicken.

Tracklist:

A1. Ghetto Riddim
